Surface view of the headframe at Stella Dysart Mine No. 1.

A huge dump trailer used in hauling uranium ore. Here loading operation completed at mine shaft. This truck is capable of hauling 25 tons of ore, from Stella Dysart Mine No. 1 to the mill.

Ore loader in action 350 feet below surface at Stella Dysart Mine No. 1. Note yawning tunnels in background.

At dedication of Homestake-New Mexico Partners uranium processing mill near Grants, New Mexico, in April, 1958. *Left to right:* A. Payne Kibee of Salt Lake City, president of The Hidden Splendor Mining Company; David A. Stretch, president of the Atlas Corporation of New York; W. Rodney DeVilliers, president of Rio De Oro Uranium Mines, Inc., of Albuquerque; Stella Dysart of Albuquerque; Dr. Donald H. McLaughlin of San Francisco, president of the Homestake Mining Company; and Edward R. Farley, Jr., vice-president of the Atlas Corporation of New York.
